

Town of Plattsburgh Complete Streets & Trails Steering Committee

Brief Meeting Notes: July 31st 4:30 PM until Roughly 6:10 PM

Although our 'ballpark' end time for our monthly meetings will continue to be 5:45 PM, our field work for the July 31st meeting kept us actively engaged until roughly 6:10 PM. Our **August, August 28th meeting** is slated to be inside Town Hall, and we'll collectively debrief and discuss what we experienced, what we discovered and what we observed on our July 31st field trip. We hope you'll be part of our August 28th gathering later this month!

At our July 31st meeting we:

1. **Gathered** at 4:30 PM in our Town Hall parking lot on Banker Street, at the north-facing entrance nearest to the Development Corporation buildings.
2. **Received** our bright, reflective safety vests and sets of worksheets for our field work during the hour and a half ahead.
3. **Rode** in caravan-fashion to two intersections, stopping at each intersection for field examination, fact gathering and a photo session at both of these two locations: [1] the intersection of Quarry Road & Tom Miller Road plus [2] the intersection of NYS Route 3 and Military Turnpike.
4. **Decided** to postpone our de-briefing session associated with today's field trip until we gather August 28th at Town Hall.
5. **Set** Tuesday, August 28th at 4:30 PM for our next meeting, which will return to the "**Inside Town Hall**" format rather than the field trip focus of our July 31st meeting.
6. **Adjourned** until we gather again August 28th.

A planned agenda for our August 28th gathering will be constructed & distributed roughly a week in advance of our gathering.

Thanks! A. Paul Scott, Chairperson
