

V2A CCC Get Ready To Learn

Get Ready To Learn: Mike Carpenter and the V2A Planning Committee have partnered with local organizations and educators to create a "fun fair" with informational booths. Families will have an opportunity to learn about proper dental care and health, literacy programs and other educational services. This free event will give parents an opportunity to interact with educators and learn the value of early childhood education in helping their children to succeed. There will be gift bags for kids and raffles. The Get Ready To Learn event will be at Clinton Community College in the Stafford Building from 10 am to noon on Saturday, March 21. CART buses will be available at two pickup sites to help those families with transportation needs. More details can be found [here](#).

- Saturday, March 21, 10am - 12pm
Clinton Community College's Stafford Building

Bring the family and learn about pre-k readiness in our region. The event will include:

- Kid activities and stories
