

LAKE CHAMPLAIN & SARANAC RIVER WATERFRONT PLAN PUBLIC EVENT

October 14th 11am-7pm & **October 15th 10am-6pm**
May Currier Rec. Building & **Cumberland Head Fire Department**

Join us for an open house event with a series of story boards depicting the current conditions along the Town of Plattsburgh Lake and Riverfront. We want your ideas to create a vision for the region, the Town, and each hamlet. Participants will be asked to vote on what they like and don't like in the schematics. A design team will be available to provide an interactive discussion to help depict your ideas for the Town's waterfront.

October 15th 6pm
Waterfront "Work-in-Progress" Presentation

Cumberland Head Fire Department

Later, join us for a presentation of the ideas generated and shared from the public over two days by the community and key stakeholders.

Want better access to enjoy the waterfront?

WE WANT TO HEAR FROM YOU!

The two day public event will include a series of hands-on design sessions, technical and stakeholder meetings, and conceptual design renderings to build partnerships between the community members, key stakeholders, and the planning team.
